

Samuel Kuntz: Ancient Mesoamerica Poster

For my poster I am going to focus on the Mesoamerican Ball Game and its impact on the Maya in particular. I will include photos of paintings and representations of the ball game being played in pre Columbian Mesoamerica, the courts today, and modern players reviving the Ball Game today in modern day Mesoamerica. I am using sources from several museums including the Smithsonian and several accredited researchers. I have been studying it with videos as well and am forming a very good knowledge base to be able to answer questions that attendees may ask. By having lots of knowledge on the Ball Game and including interesting photos I feel with be very intriguing to the community members who come to the showcase and will reflect very good upon Northwest College as a whole.
