

Practicum is an opportunity for education students to get 50 hours in a public school classroom. Practicum students plan lessons, teach, and grow as well as attend the behind the scenes parts of being a teacher, like Professional Learning Community (PLC) meetings. Ava Stearns is with Mrs. Muresan's 5th grade class at Parkside Elementary. Working with students, building relationships, and growing and adapting to the challenges of being a teacher, has become a very valuable experience that has created a great foundation to build upon.
